---

### **Memberships**

-German Society of cardiothoracic and vascular surgeons (DGTHG, Deutsche Gesellschaft für Thorax, Herz und Gefäßchirurgie).

-European Association of cardiothoracic surgeons (EACTS).

---

### **Special interests**

In addition to the spectrum of cardiac surgery, special interest in preoperative and postoperative echocardiographic examination with the performance of over 2800

transthoracic echocardiographic examinations. Knowledge of transesophageal echocardiography in relation to the field of cardiac surgery. Extended experience in cardiosurgical intensive care medicine as well as treatment and management of patients with temporary assist devices (ECLS, ECMO, IABP).

It is my firm belief that the cardiosurgical patient be treated as part of a multidisciplinary approach (cardiology/cardiac surgery/intensive medicine) so as to provide the best standard of care, from admission to discharge.

Clinical training of medical students, both in the OR as well as in the intensive care unit is also a focus of my everyday practice. My goal is to motivate our future colleagues and create an interest in the field of cardiac surgery.

---

### **Foreign Languages**

English, German
